## **MKR Investments Secures Financing for Texas' First Rum Distillery**

TEXAS, July 1, 2005 – MKR Investments today announced that it has received financing to build and operate Texas' first rum distillery.

Our business plan includes the construction of the first rum distillery in the State of Texas", said Matt Railean. We will manufacture small batches of specialty, handcrafted rum utilizing Grade-A unsulfured molasses, state-of-the-art distillery equipment, recipes and manufacturing techniques. Distribution will begin with the local Houston, Texas market and quickly expand to three other major Texas markets including Dallas, Austin and San Antonio."

"Railean Distillers will market rum products under the brand name, RAILEAN™, throughout all 50 states in the U.S.", said Kelly Railean, and we will produce the First Texas Rum™. "Now that our funding is approved we can start developing the land for the distillery and get the major equipment on order." Our goal is to be up and producing quality rum spirits by the summer of 2006.

### **About MKR Investments**

MKR Investments is a limited partnership between Matthew Railean and Kelly Railean. The partnership was formed to study the feasibility of operating a micro distillery in the State of Texas. The goal of MKR Investments is to develop a business plan and secure necessary financing for the startup of the first Texas rum distillery.
